

AAPRP Solidary Statement Conference of Left - 30 May 2026

The All-African People's Revolutionary Party (AAPRP) is the approach to organizing presented by Kwame Nkrumah in the *Handbook of Revolutionary Warfare*. We are continuing the work for Pan-Africanism (the total liberation and unification of Africa under scientific socialism) coordinated by Nkrumah, Sekou Toure, and Amilcar Cabral by organizing political education circles across Africa and the diaspora.

Capitalism in Africa only functions as an exploitative system extracting the natural resources from Africa, paying slave wages for African labor, and using the machinery of imperialism to push African states further into debt. The only solution to our oppression is to unify Africa and develop under one socialist government.

Europe divided Africa at the Berlin Conference of 1884 to avoid imperialist conflict. Today, imperialist forces work hard to keep Africa underdeveloped. They find it easier to manipulate and exploit an Africa divided into 50+ states.

Nkrumah pointed out that the formation of imperialism that has infested Africa today is neo-colonialism. The combination of financial manipulation, multi-national corporate control, CIA interference, capitalist media domination, and sell-out leaders has continued the underdevelopment across Africa. The most effective approach to combat neo-colonialism is a coordinated effort by the left to work together toward world communism. The most logical and effective approach at this stage is working for Pan-Africanism.

The conference has set up three commissions: 1) PE and Global Context; 2) Balance of Forces, Struggles and Strategy; and 3) Economic Transformation, Environment and Left Structures. We look forward to engaging with all three from a Pan-African perspective.

The Points of engagement the AAPRP will stress are continental and global.

The AAPRP's focus is to organize political education work-study circles on campuses and communities across Africa and the diaspora. The AAPRP has been operating this political education program for over 50 years to provide ideological development and practical organizing skills to anyone interested in organizing for Pan-Africanism. Africa must develop a truly revolutionary intelligentsia. The most effective milieu for developing this Revolutionary intelligentsia is the university campus.

BUT WHAT IS REVOLUTION? A DRASTIC CHANGE THAT IMPROVES THE WORLD

WHAT IS REQUIRED OF REVOLUTIONARIES? DISCIPLINE, PATIENCE, SACRIFICE, AND FEARLESSNESS, AND MOST IMPORTANTLY A WILLINGNESS TO COMMIT CLASS SUICIDE AND DEDICATE ONE'S LIFE TO COMMUNISM!

Are you ready for Revolution?

The left must recognize the need to build a revolutionary African intelligentsia. This requires all revolutionary political parties and revolutionary organizations to engage in revolutionary activity on university campuses. We must organize students; they have historically been a spark for revolution. Their numbers across Africa are growing exponentially. The African Youth Bulge will play a significant role in future organizing. They are an increasing percentage on college campuses. A battle of ideas is being waged in classrooms, pulpits, newsprint, social media, and the streets. Capitalist forces dominate this battle, polluting the minds of our people. We must shore up the ranks of a revolutionary intelligentsia to turn the tide in this battle and win the hearts and minds of the working classes. While students are the spark, it is the masses that make history. **The workers will lead the revolution.** Women toiling on the land, peasants and workers on plantations, farms, mines, and factories across Africa must be educated, mobilized, and organized. We must seize this opportunity. Developing a revolutionary African intelligentsia to wage the 'Battle of ideas' is the task of our time. Pan-African and communist forces seizing the university milieu as a training ground for organizing militants to reach out to all other sectors is the TASK OF TODAY.

WE STAND READY FOR REVOLUTION!
